

CAMBODIA

SAVE THE CARDAMOM PROTECTED FOREST

STOP THE DAMMING OF THE ARENG RIVER

The magnificent Areng Valley in Cambodia is threatened by an uneconomic Chinese dam. If it goes ahead it will wipe out endangered Siamese crocodiles and allow loggers and poachers into the 'biodiversity jewel' that is the Central Cardomom Protected Forest.

PLEASE SIGN THE [PETITION](#) to save the Areng Valley before it is too late and, if you can, please help fund the brave Cambodian activists. <http://seed.good.do/areng/pages/how-your-donation-will-help/>

Please go to [this page](#) where, with a few clicks, an email will be sent to a dozen Cambodian decision makers asking them to stop the dam.

[Facebook Event Page](#) – please join and inform your Facebook friends
