Deep Ecology with John Seed

and the EarthSoulScience Co-op Ltd

Sat & Sun 24-25th Sept 2011, 9am-5pm

Deep Ecology is a philosophy of nature which sees that underlying the environmental crisis there is a psychological or spiritual disease stemming from the illusion of separation between humans and the rest of the natural world. The late Arne Naess, Professor of Philosophy from Norway who coined the term deep ecology pointed out that our "ecological ideas are not enough to protect the Earth, we need ecological identity, ecological self". With music, poetry and film, John Seed shows us how to nourish our ecological identity and align ourselves with Earth.

In this workshop we participate in a series of processes and rituals informed by those used by indigenous peoples throughout time. Using personal sharing, experiential deep ecology and creative exercises, we will dissolve the separation between persons and planet. Vision and empowerment arise naturally from realigning ourselves with the living earth.

The Homestead, The Briars, Nepean Hwy,
Mount Martha **Mornington Peninsula**
(MW Ref 145 D11) **Cost: \$150 or \$120conc.**
