

# EARTH, SPIRIT, ACTION

## an experiential deep ecology workshop with John Seed

Human identity exists at the intersection of the ancient cycles of air, water and soil. In spite of the pervasive illusion of separation, in reality no separation is possible between nature and ourselves. By acknowledging our interconnectedness we invite the spontaneous healing of the psyche.

Using personal sharing, experiential deep ecology and creative exercises, we dissolve the separation between person and planet. Vision and empowerment arise naturally from realigning ourselves with the living Earth.
